## HARRISON RESIGNS AS Y. M. C. A. SECRETARY

## I. O. O. F. GRAND LODGE AT RICHMOND

Mr. C. B. Harrison, secretary of the Bourbon County Y. M. C. A., has tendered his resignation to the official Board of the institution, to take effect upon appointment of his successor. Mr. Harrison will go to Newcastle, Indiana, where he will reenter the field as secretary of the Y. M. C. A.

Mr. Harrison came to Paris from Camp Taylor about four years ago, during which time he has most acceptably filled the position of general secretary of the Y. M. C. A. He has introduced many novel and attractive features, and his general aim was to bring about better conditions wherever he saw need for it. He encouraged athletics, the Boy Scouts movement, the organization of a boys' band and many other features that brought the local Y. M. C. A. up into the front ranks. He will leave Paris with the best wishes of all, especially the newspaper men, to whom he was ever courteous and accommodating. His successor is to be chosen at a special meeting of the official Board, to be held soon, and heres hoping the next one will be as good as the retiring secretary.

## ALLEGED MOONSHINER ARRESTED

At the present rate the question will soon have to be asked by Bourbon county farmers of prospective tenants, "Do you propose to have a moonshine still on the premises?"

Armed with a search warrant Sheriff M. Peale Collier and Deputy Sheriff James Gibson, Tuesday afternoon, went to the farm of Warren Rogers, on the Cane Ridge pike, near Paris, and arrested a colored man named Al Summers, who lived on the farm. After making a search of the place the officers discovered a complete moonshine still, made of a large can with coils and about one and a half-gallons of mash, which they confiscated and brought to town with their prisoner. Summers was placed under \$500 bond for his appearance before Judge George Batterton for trial.

## ATTA, BOY! THANKS, JIM!

(Cynthiana Democrat)

Editor Warren Fisher is having fun with Paris about the condition of some of its streets, and Paris is inclined to ask what business it is of Carlisle. That's the way. Bourbon is not willing to take advice from Nicholas, which on a bond issue of \$100,000 succeeded in building six miles of turnpike.

## PARIS CITY SCHOOL NOTES

Special attention of Bourbon county teachers is called to the extensive courses given in Paris this year by the University of Kentucky.

The Bourbon county teachers are to meet at the court house at 10:00 o'clock and I shall be glad if you will consider at that time the extensive courses offered by the University.

Prof. E. F. Farquhar will give a course in the English Bible on Saturday morning at 10 o'clock. This course will meet every Saturday morning at 10 o'clock throughout the year and will carry six University credits.

Dr. P. K. Holmes, of the University of Kentucky, will give a course in Hygiene and Health Education. This course will meet at 8:30 o'clock every Saturday morning throughout the year, and will carry four University credits. This course is required of every person who is graduated from the University of Kentucky. It is a lecture course and requires very little outside study.

Dr. James Edward Tuthill will give his famous course in American History Tuesday afternoons at 2:30 o'clock. This is considered the outstanding history course at the University.

These courses are all given at the Paris High School and they are given with the interest and with the hope of larger and better educational opportunities for the entire county of Bourbon. In other words, almost a University education is offered in Paris.

If you are interested in any of these courses we cordially invite you to come. If people out in the county are not interested and do not expect to attend any of them the lecture hours will likely be changed to weekly afternoons.

I shall appreciate it if you will let me know after your meeting at the court house Saturday how many of you expect to attend these courses in order that we may arrange the hours. If you want to enter Prof. Farquhar's class I shall be glad if you will come Saturday, October 7, as soon after 10 o'clock as possible.

LEE KIRKPATRICK,  
Superintendent of Paris City Schools.

## COMMUNITY SERVICE MEETS

An open session of the Paris Community Service organization will be held to-night at the Bourbon County Y. M. C. A. gymnasium. Miss Grace Cruickshank, director of the playground work here during the summer, will come from Lexington to give her report. The writer program will begin with this meeting.

## NEW INCORPORATIONS

Articles of incorporation were filed in the office of the Secretary of State at Frankfort, Tuesday, by the Bourbon Building and Loan Association, of Paris, capitalized at \$500,000. The incorporators were: H. A. Power, E. B. January, D. Y. L. Farley, Houston Rion, J. T. Tucker, James Daugherty, Roy F. Clendenin, Will S. Arnsperger, and George Batterton, all of Paris.

## BASE BALL

### TUESDAY'S RESULTS

Paris 8, Winchester 7.  
Cynthiana 12, Maysville 3.  
Mt. Sterling 9, Lexington 0, (forfeited.)

### WEDNESDAY'S RESULTS

Paris 7, Maysville 5.  
Cynthiana 1, Mt. Sterling 2.

Paris and Mr. Sterling will play at League Park, in Paris this (Friday) afternoon, at 2:30 o'clock. If Paris loses we go back to a tie with Cynthiana, and if Mt. Sterling loses Paris becomes the undisputed winners of the second series. This announcement should bring out a big crowd this afternoon.

The Kingdom of God is composed of those who are loyal, obedient subjects of God," he said. "Multitudes now manufacture gods to suit themselves, but they make their gods small enough not to rule them. My Heavenly Father is a God of great proportions, and we are under His hand."

"You Central Kentucky Sunday school folks are up against a particular problem in violation of the Sabbath by Sunday base ball and in gambling on base ball games. Every law is a blue law to the man who wants to violate it. The same God who said, 'Thou shalt not kill, Thou shalt not steal,' and 'Thou shalt not commit adultery,' wrote on the same tablet, with the same finger, on the same mountain to be delivered by the same man, 'Thou shalt remember the Sabbath day to keep it holy.' He who wantonly violates one will violate the others if retrants of public sentiment are withdrawn. I have confidence only in people who regard God because he is God."

## MINERS

Miner's wildness in the first inning, walking five batters for two runs, gave the Paris Mammoths a lead that the Maysville Cards could not overcome in the game at Maysville Wednesday afternoon. Though they made ten hits in the final three innings, the final score stood 7 to 5 in favor of the Paris aggregation. The contest was a slugging match from the beginning, eight two-base hits being registered. The batting honors went to Winger, of Paris, and Margerum, of the Maysville team. Monahan, Winger, Maples and Resitenburg, of the Paris team, got two-base hits. The game at one time took on the appearance that that Paris people witnessed here several days ago, when a near-fraud was precipitated between some of the players and the umpire. The batters were: For Paris, Rummage and Macke; for Maysville, Miner, Boskins and Connely. Time of game, 2:30; umpire, Weber.

Winchester defeated Paris in a spectacular game played on the Winchester grounds Monday, by a score of 7 to 6. This was the second straight victory for Moss, Winchester's youthful hurler. Practically every man in the Winchester line-up hit the ball hard, getting a total of fifteen hits off of Ballou's delivery. Bell hit a home run, and Devereaux and Van Winkle had three hits each. The batters were: For Paris, Ballou and Macke; for Winchester, Moss and Thoss. Ackley umpired.

The only game in the Blue Grass League yesterday was played at Mt. Sterling, when the Essex defeated the Cynthiana pennant aspirants by the close score of 2 to 1. This results in favor of Paris in the climb toward pennant honors, placing the Mammoths in the lead.

The Cynthiana Democrat says: "Saturday, Paris released Mueller, pitcher, and he joined the Studebakers and pitched against Cynthiana and won his game that afternoon. Tuesday he quit Lexington and returned to Paris and won a game from Winchester. What's your verdict?"

The Giants of the National League won the first game of the world's series Wednesday afternoon from the Yankees of the American League by the score of 3 to 2. Attendance, 35,000.

The second game of the world's championship between the New York Giants and the New York Yankees, was called yesterday on account of darkness, with the score tied, 3 to 3.

## FOOTBALL NOTES

The Richmond Register says: "After their 10 to 0 victory over the Nicholasville eleven last Saturday the Dodgers are preparing to take a trip to Paris, where they hope to continue their winnings. The game with the Paris eleven may be played next Saturday. This local team, for boys 15 years of age and younger, made quite a record last year and hope to continue their good work this season."

The Paris High School eleven will meet the Freshman team of the University of Kentucky at three o'clock, this (Friday) afternoon, on Hancock Field. The same team will play the team of the Kentucky Wesleyan College of Winchester, Saturday afternoon, on the same field.

## FREDERICK WALLIS "DOING THINGS" IN NEW YORK

Frederick A. Wallis, formerly of Paris, and at present chairman of the New York State finance committee, is still "doing things" in the Empire State.

Mr. Wallis' latest work is the collecting of a Democratic fund for use in the coming gubernatorial campaign and seeing that no corrupt use is made of the money. He has declared war in earnest on all fraudulent election practices, and notwithstanding that Deputy Attorney General Abraham S. Gilber has been named by Governor Miller to "take a peep" at the names of thousands of dead men which are voted yearly, Chairman Wallis is conducting an investigation on his own account.

He is rapidly collecting evidence of the dishonest and incorrect registration lists which are being used, and plans to submit to the next legislature bills so framed as to guarantee clean elections.

Mr. Wallis also claims to be accumulating evidence to the effect that the New York Democrats will redeem the State at the fall election. His latest reports show that he has already broken the record in amount of subscriptions for campaign expenses, and he offers this as testimony of the confidence which reigns in the party.

## FIRE PREVENTION WEEK

This is "Fire Prevention Week," and it is not too late yet to observe it. Gov. Morrow issued a proclamation calling upon the people of Kentucky to "join in a nationwide movement of property inspection, examination of flues, old storage rooms, elimination of inflammable material from garrets, etc., and generally inspect your property that it may not be a menace to your family and to the property of your neighbor."

The proclamation called attention to the careless use of fire in the open fields and woods during the dry season. The people of Paris have been circularized and otherwise urged to clear away all possible sources of fire, and the people of the county are urged to take the same precautions.

## TOBACCO SUIT ON DOCKET

The suit of the Co-operative Bureau Tobacco Marketing Association against Garrett Watts, of Fayette county which has occasioned considerable comment among tobacco men of Central Kentucky, will be called for trial at the November term of the Bourbon Circuit Court.

This suit arose out of Watts' alleged failure to deliver seventy thousand pounds of tobacco, said to have been pledged to the Association. The Association seeks to recover liquidated damages of \$3,500, besides counsel fees amounting to \$1,000.

The papers in the case were served on Mr. Watts by Deputy Sheriff James Gibson, while he was on an L. & N. train passing through Paris, en route to the Latonia races the past spring.

## BOURBON POST AMERICAN LEGION

The Bourbon Post of the American Legion is called to meet in the County Court room at 7:30 p. m. Saturday evening, October 7. This will be a very important meeting of the Legion. Armistice Day is coming, and plans should be made for the fitting celebration of the day. The Club-rooms are almost ready for occupancy and arrangements for furnishing the rooms should be made. To avoid conflicting with a community meeting which is to be held Friday night, and in the hope of having a full attendance the time is changed from Friday to Saturday night. "Everybody out." Smokes and fruit on the program.

## TRUSTEE APPOINTED

At a meeting of the creditors of E. M. Wheeler, who recently filed a petition in bankruptcy held in the court house Tuesday morning, James Clay Ward was appointed trustee in bankruptcy. Referee A. M. Cox, of Cynthiana, Referee in Bankruptcy for this district, was present at the meeting.

## TEACHERS' MEETING

An informal meeting of the teachers of Bourbon county will be held in the County Court room at ten o'clock to-morrow (Saturday) morning. Business of importance will be transacted.

## Fashions and Fabrics Always New

Is the aim of the Autumn Suits—and how admirably they succeed is plainly seen in these new models. Be it simple or elaborate, each is stunning in line, in color, in fabric, in trimming or lack of it. You will like them all. The prices are interestingly moderate.

Don't break away from your pastures for untried fields. Every community affords a commercial pasture in which can be found something to fill every want. The home merchant is the pasture from which every citizen should fill his wants. Those who choose to break through the barrier and shop in non-home productive stores are the losers and the community next.

MORAL—Never rush from green pastures into barren fields.

What about the person who pays an admission to see the movies, and who, before the feature is ended, begins to climb over other folks who desire to see the finish of the performance, but whose pleasure is destroyed because of the mad rush of a considerable number, to whom it means more to be the first out than to get their money's worth. Wheh, that's a long sentence, but we just had to say it. Please have a heart and keep your seat until the "show" is ended.

Keep watch of your words, dear people, For words are wonderful things; They are sweet like bees fresh honey Like bees they have terrible sting, They can bless, like the warm, glad sunshine, And brighten a lonely life; They can cut, in the bitter contest, Like an open, two-edged knife.

Appearances are so deceiving, dear people! Wednesday at noon a man, woman and a young girl, the latter attired in the height of present-day fashion, got out of a big limousine in front of Oberdorfer's drug store. The girl was a vision of loveliness, with a complexion absolutely faultless, free from the least suspicion of drug store or beauty parlor cosmetics. Her eyes were deep pools of sunshine and innocence, and grace marked her every movement. The charming creation of white in which she was enveloped served to enhance her exquisite beauty. When she smiled it was like a burst of sunshine after a storm, and her pearly teeth gleamed through rosy lips. She was the perfection of lovely womanhood. As they left the car, the elderly woman, presumably her mother, called her attention to a spot on her otherwise immaculate skirt. And then what did this peerless young beauty do but shock the bystanders by exclaiming in a voice that dripped sweetness: "Naow, mam, whur'd I git that there at?"

### THE ACID TEST

The biggest blessing of any community is its banks and the conservative men at their heads. They are guardians of our financial existence and welfare, aiming at all times toward security. Can you imagine the man, who has fallen prey to one of the many dispossessors of valuable stocks and bonds, seeking financial relief? Then is when he learns only too late that he has been victimized of his earnings, whereas, a few minutes consultation with his home banker would have made him secure for all times had he sought and accepted his advice.

MORAL—Consult our home bankers first, he is our neighbor and friend.

### LESSON FOR OCTOBER 8

#### THE BIRTH AND CHILDHOOD OF JESUS

LESSON TEXT—Luke 2:1-20; 40-52.

GOLDEN TEXT—And Jesus increased in wisdom and stature, and in favor with God and man.—Luke 2:52.

REFERENCE MATERIAL—Matt. 1:18; 2:23.

PRIMARY TOPIC—The Boy Jesus.

JUNIOR TOPIC—The Boyhood of Jesus.

INTERMEDIATE AND SENIOR TOPIC—Jesus at Home and at School.

YOUNG PEOPLE AND ADULTS TOPIC—The Religious Training of the Young.

I. The Birth of Jesus (vv. 1-7).

1. Time of (vv. 1-3). It was at a time when the Jews were coming under the Roman power. It was a most propitious time for the introduction of the gospel. The whole world was under one rule, making it possible for ministers to go from place to place easily and without molestation.

2. Place of (vv. 4-6). Bethlehem, as the prophet had foretold 700 years before (Micah 5:2). God moved the emperor to enforce the decree of taxation in time to cause Mary to be at Bethlehem.

3. Circumstances of (v. 7). His surroundings were of the most humble sort. The Almighty Creator descended to take upon himself humanity—to be born in a manger, becoming the poorest of the poor that none might be hindered from coming to Him.

II. The Birth of Jesus Announced (vv. 8-20).

1. To Whom (vv. 8, 9). The shepherds who were watching over their flocks by night. The glorious gospel message was first given to laboring men.

2. By Whom (v. 9). The first gospel sermon was preached by the angel of the Lord. The angels have part in making known the gospel to lost men. These glorious beings no doubt deeply sympathize with fallen, sin-cursed men.

3. The Nature of the Message (vv. 10-14). It was good tidings of great joy. It was good tidings because the way of salvation was about to be opened for all—Jew and Gentile. So glorious was this news that a multitude of the heavenly host accompanied it with a song of praise. It is through Jesus Christ that God's kindness and good will are made known to man.

4. The Shepherds Witnessing (vv. 15-20). They made a prompt investigation of the angel's message.

III. The Child Jesus Growing (vv. 40-52).

Jesus Christ was divine, but His deity did not interfere with His development as a human being. The processes of his physical, mental and spiritual growth were the same as those of any normal human being.

1. Jesus Tarrying Behind at Jerusalem (vv. 40-43). At the age of twelve years Jewish child took his place as a worshiper in the temple, for he was considered a "child of the law." Being conscious of His mission when His mother and Joseph were returning from attendance at the Passover, Jesus tarried behind to enter the temple and inquire into the meaning of the ordinances of God's house.

2. Jesus Found in the Temple (vv. 44-47). When His mother and Joseph had gone some distance on their journey they perceived that Jesus was missing and sought for Him among their kinsfolk and acquaintances. Not finding Him there, they returned to Jerusalem, where they found Him in the temple. (1) He was "sitting" (v. 46), showing that He was no passing visitor or sightseer. He was perfectly at home in His Father's house. (2) He was "hearing" (v. 46). He was hearing the teachers of God's Word. This shows that He was eager to learn God's will. (3) He asked questions (v. 48). His growing mind was inquisitive. It more than received what was taught; it inquired after. (4) He answered questions (v. 47). His answers showed great wisdom, such as to astonish those who heard Him. Yet we should not surmise that He was consciously displaying His wisdom. It was not an exhibition of His divine wisdom, but the expression of the workings of a perfect human mind suffused by the Holy Spirit.

3. Mary's Complaint (vv. 48-50). She remonstrated with Him for His behavior. To this He replied in a dignified, yet tender manner. He made no apology, showing that He was more than the son of Mary.

4. Jesus' Obedience (v. 51). Though He was fully conscious of His divine being and mission, He lived a life of filial obedience.

5. Jesus' Development (v. 52). (1) Mental. He, "increased in wisdom." (2) Physical. He "increased in stature." (3) Spiritual. He "increased in favor with God and man."

### WOMAN ONCE RICH, A VAG

Mrs. Cisette Calzabina Unable to Find Relatives After Unfortunate Foreign Marriage.

New York.—Mrs. Cisette Calzabina, thirty-five, once a woman of wealth and position, according to the report of a probation officer, was arraigned in Essex Market court on a charge of vagrancy.

Patrolman Reilly of the Mercer station arrested her when he found her sleeping in a hallway at 124 Macdougal street.

The probation officer's story was to the effect that Mrs. Calzabina was born of wealthy parents in Denver and that after studying music in New York and European cities, she married an Italian, who deserted her. Then she was not able to find her relatives, the misfortunes of her married life having weakened her mind, the officer said.

Magistrate Rytenberg adjourned the case and sent the prisoner to the Waverley home.

### MISSING LINK' HUNTERS SAIL

Captain Salisbury Accompanied by Daughter and Motion Picture Men Leave for Malay Peninsula.

San Francisco.—Capt. Edward A. Salisbury, scientist, left San Francisco on a steamer for the Malay peninsula, where he will search for what has been termed in science "the missing link."

Accompanying Capt. Salisbury were M. C. Cooper, formerly a lieutenant colonel in the aviation corps of the United States army; Duke Zeller, experienced explorer; Edward Burghard of Columbia university, New York; Miss Dorothy Salisbury, the explorer's daughter, and two motion picture men.

Captain Salisbury said rumors had come across the Pacific ocean from time to time about a tribe of white men in the jungle of the Malay archipelago who had short, vestigial tails.

Feed Convicts on 17.7 Cents Daily. Ossining, N. Y.—According to Warren Lewis E. Lawes, the cost of feeding prisoners at Sing Sing prison for August was 17.7 cents a day for each man, or 5.9 cents a meal. Pastry and pudding are included in the menu several times a week.

Catch 7½-Foot Eel.

Taftville, Conn.—A party of local fishermen at Taftville pond landed 138 pounds of bullheads the other night, three eels that weighed more than ten pounds and several perch. At a point below Butte bridge they caught a turbot weighing 50 pounds and one lamprey eel seven and one-half feet long.

## MILLION VISIT THREE SHRINES

Figure Yearly Total in Pilgrimages to Washington and Lincoln Memorials.

### MANY CLIMB BIG MONUMENT

Big Share of Guests in National Capital Make Trip to Mount Vernon—Recently Completed Lincoln Memorial Popular.

Washington.—More than 1,000,000 persons make pilgrimages each year to Washington's home, Mount Vernon, the beautiful Lincoln memorial and the Washington monument, the latter being the most popular of the three shrines among visitors to the national capital.

Visitors numbering 34,113 went during July to the top of the Washington monument, located a few hundred yards south of the White House. More than one-fifth of them climbed up the 898 steps in order to see the memorial tablets on the various landings inside the shaft. The remainder rode to the top in the electric elevator which has a capacity of 35 persons. More than 5,250,000 people have visited the top of the monument since it was opened for observation purposes October 9, 1888. No entrance fee is charged.

**Lincoln Memorial Popular.**

The Lincoln memorial, recently completed and opened to the public, was visited by 31,383 persons during July. Located in Potomac park, directly west of the Washington monument, it is rather inaccessible for pedestrians; visitors usually go there by automobile. On a recent Sunday 2,000 persons were recorded as entering the great building. It is rapidly becoming a shrine for tourists. No entrance fee is charged.

**Washington's Administration Prolific of Colonels.**

Possibly no Kentucky Governor has commissioned more Kentucky Colonels than Governor Morrow, and he has about a year yet to serve. During his incumbency the Governor has been very generous in conferring the honorary rank among his friends in all parts of the State, with the result that he has a goodly lot of staff Colonels for any emergency.

In later year Kentucky Governors have appointed indiscriminately, often at the solicitation of their friends who desire to convey a compliment. Formerly the colony appointments were less numerous, and it was tactfully understood that those honored would equip themselves with a dress uniform and appear in full regiments and gold lace with the Governor at State functions.

Now, however, it is a rarity to see a Kentucky Colonel in battleship order. The new staff officer gets a beribboned commission bearing the great seal of the State and is dubbed "Colonel" for a while, and that is the last of it. The Governor rarely sees them, and probably would not know them if he did.

Making hay while the sun shines has its counterpart in making Colonels while the Legislature is

CENTER'S OPPORTUNITY

Centre College has received an extension of the time in which to meet the terms under which it may obtain \$200,000 from the General Education Board in New York. The time limit under which the offer was made ended July 1, but the extension gives until the end of next December. The requirement is that Centre raise a fund of \$300,000 for its endowment.

Centre is a Presbyterian College in the sense that it has been endowed largely by Presbyterians. But it is a Kentucky college in the broadest sense. Its scholastic, as well as its athletic fame, has reflected credit on Kentucky and on Kentuckians. Centre needs endowment to enable it to keep pace with its increasing prestige. The facilities are insufficient to meet the demands of enlarging attendance.

The million-dollar campaign for Christian education in Kentucky will have the care of the raising of the fund. The principal solicitation will be among Presbyterians, but everybody is invited to show appreciation of the alma mater of so many of Kentucky's men of note.

Aside from all sentiment, it will be good business for Kentucky to respond liberally to the request for money for Centre. Success will show that Kentucky is alive to offers from outside sources. It will show an aggressive and enterprising spirit. It will enable Centre to compete more successfully with the richly endowed colleges of other States and this will mean that Kentucky boys will not be under pressure to go away from this State to receive advanced education.

Kentucky is a proud State. It is proud of Centre. The endowment offered affords Kentuckians a chance to show that State pride is based on present ability as well as on memory of past achievement.

## DYE A SWEATER AND SKIRT WITH DIAMOND DYES

Every "Diamond Dyes" package tells how to dye or tint any worn, faded garment or drapery a new rich color that will not streak, spot, fade, or run. Perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Just tell the druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. For fifty-one years millions of women have been using "Diamond Dyes" to add years of wear to their old, shabby waists, skirts, dresses, coats, sweaters, stockings, draperies, hangings, everything! ### UNITED WE STAND

There is nothing of greater importance to us than the prosperity of our community. Prosperity at home is based on local conditions.

Let us get together for a better town by working in a spirit of harmony and co-operation.

Not only should we promote the business success of the people and interests of the town in general; but show our appreciation of having the chance to provide for ourselves the necessities of life through the prosperity of our town.

The old motto of "United We Stand" should appeal to us as being necessary to encourage what is best for our town, for without unity we can accomplish nothing.

MORAL—Don't upset the Home Town Wagon by pulling in different directions.

### RHEUMATISM

Do you know that rheumatism can be cured so that you can be your own good self again?

It has been done not only once, but in almost every case by nature's great Remedy, Radio-Active Miwogco Mineral Water Baths at our Sanitarium.

### "IN THE DAYS OF AULD LANG SYNE."

There's no denying that to most of us there is a certain satisfaction in reviewing the events of long ago, as they are presented to us, either casually, or by force of some reminiscent strain of the moment. And to those who lived here in the long ago the recalling of events in the old days of Paris affords a peculiar satisfaction all its own. They, perhaps, more than we who have grown used to the old place, will appreciate these items, taken at random from a copy of THE BOURBON NEWS of Friday, April 28, 1882:

Everybody in town has an opening to-morrow. THE BOURBON NEWS will even open its books to credit subscriptions.

A. T. Forsyth, auctioneer, sold at public sale Wednesday, the farm of the late Benjamin Bowen, of 376 acres near Kiser's Station, to H. C. Bowen, at \$40 per acre.

The latest of the two hundred new cars for the Kentucky Central Railroad were received from the factory last week. The railroad is now very fairly equipped.

The city of Paris was fined \$100 and costs Wednesday by the Commonwealth for permitting the streets blockaded by colored folks in front of some up-town saloons.

Ever thoughtful of the public's wants, and for the thorough diffusion of the valuable information, we stop the press a moment to announce that Dr. Charlie Fithian, Billy Shaw, Jr., and Mildred Kennedy didn't usher any at the circus.

C. Webbing, the butcher, will move in a few days to the building now being reported by John T. Hinman, on the corner near the Thurston House, opposite Hill's marble works.

The City Council convened in extra session Wednesday night, and re-licensed all the saloons in the city. They contemplate adding another deputy marshal at an early date, we understand.

John Avritt, son of Mrs. Avritt, of this city, has charge of a sheep ranch near Tombstone, Arizona. He writes back that sheep are sold at 25 cents each, and chickens as high as \$1.25.

A Nicholas county man at the circus Tuesday, remarked "the reason this show didn't go to Carlisle, was that there wasn't level ground enough to set the big tents on."

Cynthiana and Carlisle only sent four or five representatives to the great Barnes revival, but sent large delegations to the circus. There's nothing like taste, you know.

McCreary, from Boyd's Station, while drunk, fell off the second porch of the Bourbon House to the pavement, Tuesday night, and was considerably bruised. He is still confined to his room.

### POSTED!

I hereby forewarn all persons, that my farm is posted, and all trespassers either hunting or fishing on my premises will be prosecuted to the extent of the law.

My friends will please not ask the privilege of violating my positive resolution.

### JESSE TURNER.

Yesterday evening as the Maysville passenger train was backing up to the junction, Rudolph Davis, a twelve-year-old son of Geo. W. Davis, of this city, jumped from the train when passing the freight depot, struck a clearing post which threw him down. In the fall, one arm fell under the wheels, which cut the hand off near the wrist.

The great circus of Sells Bros. showed to about 6,000 persons at each of their entertainments Tuesday. This is about the only circus that has ever shown in our city that has come fully up to the pictures on the walls. Its immensity cannot be excelled by anything in the show line now on the road. This company's receipts average about \$5,000 per day, which leaves quite a margin for profits after deducting their expenses, which are about \$1,500 per day—\$500 of which is for advertising alone.

The 63rd anniversary of Odd Fellowship was celebrated by Bourbon Lodge No. 23, Wednesday night, at their hall in this city, at which a fair crowd listened to the exercises of the evening. An impromptu choir composed of a score of young ladies and gentlemen of the city, kindly favored the exercises with sweet music. Emmett Dickson, a talented member of the order, and a shining light of the Paris bar, delivered the welcome address in a few well-timed remarks appropriate for the occasion, after which Prof. H. R. Blaisdell, Principal of the City School, read a condensed history of Bourbon Lodge, W. H. Holt, Grand Master of Kentucky, entertained the audience in an address of one hour, on "True Odd Fellowship," which was replete with thoughts altogether foreign to the old manner of society addresses on similar occasions, which was well received by his old friends and former associates here.

**P. H. S. LYCEUM COURSE TO-MORROW**

One of the most delightful programs in the Lyceum Course will be rendered Saturday evening, October 7, by the Princess Adonis Indians. They have captured many audiences in every country by depicting Indian life in its most charming aspect and have often appeared before crowned heads from whom they received the greatest appreciation.

Princess Adonis is the best known Indian poet in America. Her recitals of original Indian stories and poems are most fascinating, as she creates an atmosphere of peculiar charm and mystery in which the red man moves with austere dignity.

The Princess is assisted by Chief Kouaka White Eagle, a member of the Winnebago tribe in Wisconsin, who will give a short talk on the history and customs of his tribe. He will portray the Indian as a brave warrior, a loyal subject, and a just man.

The whole company will furnish an entertainment of unusual interest—an entertainment that will prove worth while to every citizen of Paris. Buy a season ticket at once and be prepared to attend every number of the Lyceum Course.

**PETER MANNING LOWERS THE WORLD'S TROTTING RECORD**

Peter Manning, the world's fastest trotter, gave another remarkable demonstration of the speed that gained the bay gelding his title when he circled the track at the Kentucky Trotting Horse Breeders' Association course Wednesday afternoon in 1:56 1/4, breaking not only the track record but also the world's record for the mile.

The speedy son of Azoff-Glen-dora G., in establishing the new record, broke two of his own unchallenged marks. The gelding was the holder of both the Lexington record and the world's record, the former being established at the trots here last year and the latter at the recent trotting meet in Columbus, Ohio. The former world's record was 1:57.

Peter Manning, who is owned by I. W. Gleason, of Williamsport, Pa., was driven by Thos. W. Murphy, one of the premier reinsmen of the Grand Circuit. He covered the first quarter in :30, the half in :58 1/2, the three-quarters in 1:27 1/2 and finished the mile in 1:56 1/4.

**AIN'T NATURE GRAND?**

Old Dame Nature is certainly having a great time in October with the temperature ranging in the eighties, and all kinds of doings going on in the blooming line. Among the many eccentricities of the season so far noted are these:

Wm. Goodloe, of Paris, exhibited a large branch full of apple blossoms, taken from an apple tree in full bloom. This is accounted a very unusual sight at this time of the year.

At the home of C. A. Ellis, on High street, one of the most prolific watermelon vines in the county is seen, from which a melon weighing 28 pounds, was pulled recently. The vine has six other melons rapidly advancing toward the ripening stage, provided frost doesn't come soon.

Blossoms from a pear tree were brought to the Leader office in Lexington, by O. W. Wilson, 938 Manchester street. Mr. Wilson said the tree has been in full bloom since the first of October, the tree's second blossoming this year.

The front yard of Edward Terburne on the Harrodsburg and Perryville pike, near Harrodsburg, is a beautiful sight, with a lilac bush, three apple trees and three cherry trees in full bloom.

**FALL FESTIVAL DISCUSSED**

The Board of Directors of the Paris Commercial Club, at a meeting held in the offices of the Peoples Deposit Bank, discussed the feasibility of holding a Fall Festival and Agricultural Show in Paris sometime in November. They decided to take no action at present unless the members of the Club decided to have the plan carried out.

Farmers of the county who have been approached on the subject are very much in favor of the plan.

Another meeting to consider the subject was held last night by the Commercial Club, at which the subject was discussed at some length. The meeting was still in session as THE NEWS went to press.

**COURT OF APPEALS DOCKET**

The following cases from the Bourbon Circuit Court have been placed on the docket by the Court of Appeals:

Lyons' Guar., etc., vs. Lyons' Exors., etc., Bourbon. Appellee filed brief with notice and motion for cross-appeal. Motion submitted.

Monson vs. Payne, Agent, Bourbon, Smith & Earlywine vs. Payne, Agent, Bourbon. Appellee filed reply brief with notice.

**THRILLERS AT THE GRAND AND ALAMO**

William Farnum puts up a terrific fight for love and revenge in his latest William Fox picture, "Shackles of Gold," which will be at the Alamo and Grand Monday afternoon and night.

"Shackles of Gold" is based on Henri Bernstein's great stage success, "Samson." In the picture Farnum rises from the position of dock laborer to that of millionaire and weds a girl whose parents—social climbers—had money. Myra Bonillas is Mr. Farnum's leading woman in this picture, which Herbert Brenon directed.

What is regarded as one of the most popular novels written by Booth Tarkington, is "The Man From Home," and now, having reached the screen as a George Fitzmaurice Paramount production, it will be lived on the silver-sheet of the Alamo and Grand Saturday afternoon and night.

James Kirkwood, popular leading man has the leading role, and others prominent in the cast are Anna Q. Nilsson, Norman Kerry, Dorothy Cumming and John Milner. The adaptation was made by Quida Bergere.

**COBURN'S MINSTRELS HERE OCTOBER 12.**

Dan Holt for the past ten years associated in the big time vaudeville (formerly of Al. G. Fields, and Coburn's) has this year returned to his former position as character and principal comedian with Joe Coburn's Minstrels. Dan is from Macon, Ga., from which fact his title of "The Georgia Cotton Blossom" was given him by hosts of friends in the Southland.

At the death of Lew Baldwin, of Coburn and Baldwin musical comedians, Dan did a musical specialty with Manager Coburn, afterward assuming the position of principal fun-maker with the company. At the Paris Grand Opera House on Thursday night, October 12.

**NEWS OF THE COURTS**

At the request of J. Simms Wilson, of Paris, an automobile belonging to Roy Vanzant, of Paris, was attached. Vanzant had been arrested on a charge of taking a setter dog belonging to Mr. Wilson, and disposing of it to a man in Ohio, who resold it to a Virginia man.

Will Rankin, colored, was given a hearing in the County Court before Judge George Batterton on a charge of having moonshine liquor in his possession, and for carrying concealed a deadly weapon. Rankin entered a plea of guilty on the weapon charge, and was held to the grand jury in November. On the liquor charge he asked for a jury, which gave him the maximum penalty of a \$300 fine and sixty days in jail.

Rankin was arrested at an early hour Sunday morning at the intersection of the Georgetown and Cynthiana pikes by Sheriff M. Peale Collier and Deputy Sheriff James Gibson, who found a quantity of moonshine in his machine and hid along the roadside.

In the County Court Jason Redmon and Redmon Lair were appointed administrators of the estate of the late Sol Redmon. They qualified for the trust by furnishing bond in the sum of \$35,000, with C. N. Redmon and Redmon Lair as sureties.

D. C. Parrish was appointed as administrator of the estate of his deceased wife, Mrs. Jessie Tipton Parrish. Mr. Parrish qualified by furnishing bond with Robert M. Gilkey as surety.

E. T. Keller has been appointed by County Judge George Batterton as administrator of the estate of the late Ike N. Keller. Mr. Keller accepted the trust, and qualified by furnishing bond in the sum of \$5,000, with Mrs. C. C. Larkin and Mrs. Nannie Keller as sureties.

The examining trial of Roy Vanzant, charged with having sold a setter dog belonging to J. S. Wilson, of Paris, was held Wednesday afternoon before County Judge Geo. Batterton. Vanzant was bound over in the sum of \$300 to appear before the grand jury at the November term of Bourbon Circuit Court. He furnished bond, signed by Joseph Walden, of Carlisle, and was released from custody.

J. R. Worthington was arrested in Paris Wednesday on the charge of stealing a dog from Horace M. Bridges. He was placed under a cash bond of \$300, furnished by Dick English, for his appearance in the County Court to answer to the charge before County Judge George Batterton.

In the third race at the Lexington trots Wednesday, Rose of Axworthy, was shut out. This is the horse being trained by the late W. G. Swearengen, at Columbus, Ohio, and which ran off, throwing him from the sulky, causing injuries which resulted in his death two days later.

**RELIGIOUS****A Resume of Events In Religious Circles For Present and Future**

—Rev. Robert Griffin, of North Fork, Ky., will fill the pulpit at the Paris Baptist church Sunday morning and evening. All the members of the congregation and the public generally are invited to hear Rev. Mr. Griffin.

—On last Sunday, the fifth anniversary of the ministry of Rev. Frank M. Tinder, of the North Midletown Christian church, he was intercepted on his way to the pulpit by John W. Jones, who, on behalf of the Sunday school and the congregation, presented Rev. Tinder with a check for \$50 as an expression of appreciation of his services.

—The eighth annual meeting of the Blue Grass B. Y. P. U. of Central Kentucky opened a two-days' session yesterday at the Central Baptist church, in Winchester. A large delegation from the various B. Y. P. U. of Kentucky, attended, Paris sending one of the large representations.

Officers of the association are T. W. Spicer, Paris, president; Chester D. Adams, Lexington, first vice-president; Miss Cora Salyers, Frankfort, second vice-president; Miss Hattie Alley, Lexington, third vice-president; R. D. Whitton, Lexington, reporter; Rev. E. G. Davis, Cynthiana, chorister; Miss Emma L. Browning, Georgetown, secretary-treasurer.

Yesterday's program embraced inspirational music; welcome address by Prof. Aitken, Winchester; response, by Charles D. Adams, of Lexington; special music; welcome stunts by the Winchester Union; address by Dr. J. W. Gillion, of Winchester.

After lunch the program for the afternoon embraced inspirational music and devotional; special music; addresses; reports; announcements, and a playtime feature by the Winchester Union. The evening program was taken up by inspirational and special music by the Cynthiana Union, and an inspiring address by Dr. W. L. Walker, of Danville. The meeting will continue through this afternoon.

**PRESBYTERIAN CHURCH**

—The subject of the Sunday morning sermon is "Living Off Our Religious Principal." All of those who have grown careless or indifferent to the church, those who discount the value of religion in the world, those who feel there is no use in attending church services, are most earnestly invited to consider this theme at the morning hour.

The Sunday night sermon will be on the subject of "The Realm of No New Discoveries." Has the world progressed in expertise in vice? Are the temptations which beset men to-day worse than they ever were? Questions like these bring forth the thought for this sermon.

Rev. T. S. Smylie will preach at both services: Hours, Sunday School, 9:30 a. m., Christian Endeavor, 6:30 p. m., preaching, 10:55 a. m. and 7:15 p. m. The public is cordially invited to worship in this church.

**FEAST OF TABERNACLES**

Members of the Jewish faith in Paris will go to Lexington to-night, to attend the religious exercises to be held at the Maryland Avenue Temple, in commemoration of Succoth, or the Feast of Tabernacles, which continues for eight days. Services will be held in the Temple, beginning at eight o'clock to-night and to-morrow morning at ten o'clock. The concluding services will be held on the following Friday and Saturday, October 13 and 14, with Rabbi David Nathan officiating. Semi-religious services will be held during the three intervening week days.

Succoth, or the Feast of Tabernacles, is one of the most important events on the Jewish religious calendar, and is always faithfully and rigidly observed.

**ANNUAL HORSE SALES**

The annual October sales of the Kentucky Sales Company opened Tuesday at Lexington. Fairly good prices were received for the offerings, which were, for the most part, of the mediocre class. At the morning sale Tuesday, Wm. H. Whaley, of Paris, purchased for \$65 the bay gelding, Peter Three Points, 1921, Peter Giltner-Miss Daisy Earl, by Earl.

**PAY YOUR GAS AND ELECTRIC BILLS**

**BRAKEMAN INJURED**

F. B. Swagglefora, a brakeman on the L. & N. division of the Louisville & Nashville, suffered the amputation of both legs following an accident when he fell between two cars at Irvine. Mr. Swagglefora is a popular railroad man and has a family living in Paris. He was reported yesterday as being in a critical condition.

**LODGE NOTES**

The Pythian Sisters will meet Friday night at 7:30 o'clock.

The Imperial Encampment, I. O. O. F. will meet at the usual hour tonight.

The Grand Lodge, I. O. O. F. of Kentucky will meet in Richmond, Tuesday. Bourbon Lodge will be represented by Grand Master E. B. January and nine delegates.

Rathbone Lodge No. 14, K. of P., was represented at the district meeting at Versailles by Knights Thos. M. Funk, C. M. Plummer and J. K. Cahal. They report a good meeting and a fine entertainment.

A. J. Lovely Co., No. 34, Uniform Rank, K. of P., held a business meeting last night. Rathbone Lodge held their meeting postponed from last week, at the same time.

Members of Bourbon Lodge gave a reception at the lodge rooms Monday night in honor of Past Master E. B. January, of Paris. The meeting was presided over by Dr. F. M. Farries. The following program was given: Opening prayer by Grand Secretary Richard G. Elliott, of Lexington; song, opening ode; music, saxophone and piano duet, by Dr. and Mrs. Harry E. Mathers; solo, Mrs. Howard B. Carr; address, "E. B. January As A Man," E. M. Dickson; music, saxophone and piano duet, Dr. and Mrs. H. E. Mathers; address, "E. B. January As An Odd Fellow," A. J. Redd, of Lexington; solo, Mrs. Howard B. Carr; saxophone and piano duet; address, Grand Secretary Richard G. Elliott; closing ode; benediction, by Grand Secretary Elliott.

## A SIN TO LET HAIR FALL OUT

35c "Danderine" Saves Your Hair—Ends Dandruff! Delightful Tonic

Hurry! It's your duty! Each day you see a little more hair falling out and you are making no effort to avoid baldness. What a pity. Falling hair means your hair is weak, sick, possibly dandruff is strangling it, or the hair root pores in the scalp are not firm and tight, thus wasting the hair-growing oils.

Danderine almost instantly stops falling hair of men or women and cleans every particle of dandruff away, then the hair takes on new life, vigor and strength to grow strong, thick, and long. Danderine is delightful—not sticky or greasy. Go to any drugstore now and get a bottle. Use it. Have healthy, heavy, beautiful hair and lots of it.

### LAST TO ADOPT PENSION

Kentucky was the last State to adopt a pension for indigent Confederate veterans, which it did at the session of the Legislature held in 1912. Although recognition was belated, the State has in the intervening time paid out several million dollars to needy Wearers of the Gray and their widows.

The last Legislature raised the monthly stipend from \$10 to \$12, but the act was nullified by Executive disapproval. At the time the original act was passed many Confederate veterans resisted the pension movement, and had not the late James B. McCreary, himself a Confederate soldier, been Governor at the time, it is doubtful if the pension law would have become effective.

The State pension has been a godsend to many of the veterans and their widows in their declining days, and this drain on the treasury has never evoked criticism from any source other than from some Confederates who dislike the idea of their comrades being put in the attitude of dependents on the bounty of the State.

The State Senate was the scene of a touching incident when the Confederate Pension Bill was up for passage. The late Senator J. M. Biggerstaff, of Warren county, a Republican and Union veteran, then enfeebled by bodily ailments, pathetically deplored the tardy recognition of a State obligation in caring for its Confederate soldiers in their last days, and he appealed to his colleagues that not a dissenting vote be cast against the pension measure.

## ASK PEDESTRIANS TO KEEP TO LEFT

Strollers on Country Roads Urged to Face Oncoming Traffic in Rambles.

### PERILS OF NIGHT ARE BARED

Dark Clothing Often Shuts Man on Street From Gaze of Driver in Automobile—International Road Congress to Meet.

New York.—Pedestrians along country roads and those who walk in the streets at night in preference to using the sidewalks can contribute materially toward the reduction of automobile accidents by walking on the left side of the road, facing oncoming traffic, according to D. H. Lewis, acting executive chairman of the American Automobile association.

"Courtesy on the part of the automobile driver demands the use of dimmed lights at night," said Mr. Lewis, "and this factor, while it contributes to the safety of passing motorists, makes it exceedingly difficult for the automobile driver to see a pedestrian walking along the edge of the road in the same direction the car is traveling. This difficulty is increased if the pedestrian happens to be wearing dark clothing. The result is that the driver is practically on top of the pedestrian before the latter becomes visible."

#### Warning to Pedestrians.

Walking on the left hand side of the road is just as good for the pedestrian and enables him to see the approaching automobile in time to step aside if the motorist does not see him in time to swerve.

The pedestrian should remember that the rules of the road require the autoist to keep to the right and should contribute to the factor of safety by keeping to that side of the road which best enables him to escape the oncoming car and especially the occasional speed fiend or 'flivverboob,' who cares nothing for consequences and speeds regardless of the rights of others, for it has been truly said that whether you were in the right or not does not matter after you are in the hands of the undertaker."

#### Roads Congress to Meet.

A certain indication that after eight years of war and upheaval the world is beginning to return to a normal state is contained in the announcement that the International Road congress, which ceased operations in 1914 because of the European conflict, is to resume its deliberations early next May at Seville, Spain. The program for what promises to be the greatest and most important conference on highway improvement ever held has just been received from the office of the general secretary in Paris.

Thousands of delegates, representing national and state governments and good roads associations in the United States, Belgium, Canada, Australia, New Zealand, China, Japan, France, Great Britain, Italy, Holland, Sweden, Denmark, Switzerland, Argentina, Czechoslovakia, Spain, Portugal, Norway, Germany, Yugoslavia, Poland, Austria, Cuba, Chile, Brazil and many other countries, will participate in the congress and exchange views and experiences for mutual benefit. English, French, and Spanish have been adopted as the official languages.

### UNEARTH COIN OF YEAR 1724

Workmen Excavating Old Headquarters of General Washington Make Interesting Find.

New York.—Workmen engaged in excavating on the site of the mansion in Montclair, N. J., that was used by General Washington as his headquarters in the revolution found several old copper coins, one bearing the inscription, "British North America, 1724." Dr. Maurice Cohen, who now owns the property, obtained some of the coins.

The workmen were moving a ten-ton boulder from one corner of the property to the site of the Washington headquarters. The boulder will bear a bronze tablet bearing a picture of the old mansion and a suitable inscription placed there by the Sons and Daughters of the American Revolution. The old mansion was razed 15 years ago.

#### Indian Relics Found.

Salina, Kan.—Relics of the days when the Indians roamed the central Kansas prairies are being taken out of the sand pits east of Salina. Bones of large and unnamed animals have heretofore been found in this neighborhood, but these bones that are now being found in the sand pits are unlike anything ever seen here. The most of the specimens have large teeth, well preserved, while others are badly decayed. In addition to the bones many large bullets of lead, flattened by having come in contact with some object, are found.

#### Can't Take Pets to Yosemite.

Yosemite National Park.—Visitors to Yosemite hereafter must leave Fido and Tabby at home, for no longer will the rangers at the gates be permitted to care for the pets, according to a recent announcement. In years past dogs have been "checked" at the entrances, but this practice became so general that the energies of the rangers were devoted almost exclusively to the pups and kitties.

## POWER PLANTS AT MINE MOUTH

Plan for Conversion of Coal Into Electric Current Where It Is Mined.

### IT WOULD MEAN VAST SAVING

Transportation of the Fuel Would Be Avoided, and Fewer Men Would Be Required in One Branch of World's Work.

Washington.—A plan for the conversion of coal into electrical power at the mouths of coal mines and transmitting the currents to the industrial consuming centers has been called to the attention of the President, Secretary of Commerce Hoover and other high officials of the government.

In proportion to its value, both in money and in heating power, coal isordinately bulky. More than one-third of the total railroad freight of the United States is coal. On some roads in coal-producing sections coal amounts to 80 per cent of all the freight hauled. A very large portion of this coal is railway fuel—that is, coal to fire the engines which haul the trains.

Louis Brandeis, now an associate justice of the Supreme court of the United States, in his brief in the Five Per Cent case before the Interstate commerce commission, estimated that when all items of cost to the railroads of buying and hauling their own coal were added, the total would be \$250,000,000. Since that estimate was made, prices and costs have increased and the railroad coal bill has amounted to \$700,000,000.

To transport coal to meet the American demand, 18,000,000 cars are employed annually and of these 2,600,000 cars are employed in hauling coal and other traffic. These figures have been filed with the Interstate commerce commission.

The commission has found, in one of its investigations into the coal traffic, that approximately 97 per cent of all the coal cars return to the mines empty.

These figures give an impression of the extent to which the transportation system is burdened with the movement of this bulky material and show how much more railroad equipment would be available for general freight if the power which springs from coal could be handled in another manner.

**Power Plants at Mines.** In general outline the new plan would provide for the erection at the coal mines of gigantic power plants. The coal would be brought up just fast enough to be put into the furnaces and maintain a steady head of steam to keep the dynamos turning.

One of the underlying reasons for discontent among coal miners and therefore one of the main causes of the coal strike is the intermittency in the industry. The big demand for coal comes in the winter time; in the summer months it falls off. Coal is mined as the market calls for it. Therefore, when the demand is light there is little mining to be done. The men are thrown out of employment. The result is that coal miners work but from 165 to 210 days a year. While their wages are regarded as good their work is not steady and therefore their earnings for the year are not large.

It is the opinion of experts that the coal industry is overmanned. There are some 700,000 men engaged in it. Under the power plan, the intermittency in the work of coal miners would be eliminated. The coal would be feeding machines running steadily and not an ever-changing open-market demand.

#### Fewer Men Would Be Needed.

The requirements of the power generators could be reckoned in advance with a fair amount of accuracy and the coal could be kept coming above ground regularly all the year round. Fewer men would be required to take care of this production and while the change would throw many thousands out of work it would be gradual and ultimately would result in a clear economic gain, it is claimed. Fewer men would be doing one branch of the world's work. The remainder would become engaged in other productive labor.

The first step in the plan for the electrification of the nation is the changing over of railroads from steam to electric power. The railroads cross the country in every direction and the cities and industries which consume power are built up along their tracks. Power cables would parallel the tracks, but would carry so much more power than would be required for the railways that the surplus would be ample for diversion to the cities en route. This would run the mills and factories, light the cities and furnish power for municipal traction lines.

When William G. McAdoo was director general of railroads during federal control in the wartime, he said that if government control were to be permanent or even long extended his first step would be the electrification of the railroads. Some of the roads have taken the step already. Miles of the Baltimore & Ohio, the Boston & Maine, the Chicago, Milwaukee & St. Paul, the Erie, the Great Northern, the Michigan Central, the New York Central, the New York & Haven & Hartford, the Norfolk & Western, the Pennsylvania and the Southern Pacific system already op-

erate by electricity. Benefits found are reduction in fuel cost, in maintenance cost, elimination of coaling engines, increased tonnage per train, increased speed on grades, increased reliability, reduced train crews, increased safety, reduced damage and wear on equipment, reduced depreciation on tracks and improved atmospheric conditions. Noise also is eliminated. The child of the future may not identify a railroad train as a "choo-choo."

#### Electric Operation Cheaper.

All operating costs considered, the experts figure that there is a net saving of 25 per cent in electric operation of railroad trains as compared with steam. An analysis made by the Norfolk & Western railroad revealed that the fuel cost of running an electric locomotive 100 miles was \$44.95, compared with a cost of \$72.42 for a steam locomotive.

It is estimated that power can be transmitted by cable for a distance of 200 miles before the leakage makes the transmission wasteful. In many sections of the country no railroad is more than 200 miles distant from a coal mine. But in the non-coal-producing regions, the mine-mouth electrical plants would be supplemented, under the plan, by hydro-electric power plants.

The nation is rich in water power, by far the greater part of which is undeveloped. The general scheme of railroad and industrial electrification would include greater power development from the streams. Between these hydro-electric plants and the coal-consuming power plants the country could be covered with a network of power cables which would serve every purpose.

Some coal movement would continue, such as that for domestic heating, but the great bulk of the coal transported to run railroads and factories would not leave the mines. Its energy would be shipped by wire.

Such a stupendous development could not be realized in a day. It would be the work of many years, but with the forces of the government, supplemented by the support of the great industrial and railroad corporations, it might be a feasible undertaking.

### QUEER THING IN LONDON ZOO

One of the most extraordinary creatures ever seen in the London zoo has just arrived there in the form of an Albino monkey, sent from Tanganyika. Albinos are white specimens of a creature not usually white, and this is the first time on record that an albino monkey has ever been at the zoo. The exact species of the monkey is not definitely known.

### POOR ADDRESSES TO BLAME

Investigation Shows They Are the Chief Cause of Failure of Mail to Arrive.

Washington.—Recent investigations made at the request of the Department of Commerce regarding the failure of foreign mail to reach its destination resulted in the disclosure that carelessness in proper addressing of matter is responsible.

The Post Office department has been conducting a survey of conditions at the port of New York, where an average of 30,000 pieces of mail daily is received and placed upon ships for foreign-bound points, which has resulted in the discovery that illegible names and poorly printed addresses cause many letters and packages to go astray. A report of the situation has been made to the Department of Commerce.

Most of the blame is laid upon the larger manufacturers of the United States, who are the major offenders in failing to properly address their foreign mail. The report, while commanding the use of addressing machines, urges that careful attention be given to their operation, particularly in the case of letters or packages to be sent overseas.

### CHAINS SON IN HOME 4 DAYS

Father Admits He "Kept Boy Out of Trouble."—Rescued by Police.

New York.—Andrew Karo, nine-year-old son of John Karo, was rescued by the police after his father had kept him in chains for four days.

According to the boy and his sisters, Andrew was forced to keep chains on night and day. When police found him he lay in a corner with a chain a yard long wrapped around his ankles and the feet secured with padlock. Karo admitted that he chained and padlocked his son, but he said that at night the boy was released. The father said he chained the boy to "keep him out of trouble."

**DEATHS****Life Is But A Brief Span, A Debt That All Must Pay****HOWSE**

A message was received in this city yesterday from Carlisle announcing the death there yesterday at noon, of Mrs. Mary Elizabeth Howse, aged sixty-six, after a short illness.

Mrs. Howse was one of the best known residents of Nicholas county, and was well-known in Paris, where she had been frequently at the home of her daughter, Mrs. Rudolph Davis. She was the widow of Roilla Howse, a prominent farmer of Nicholas county, who preceded her to the grave many years ago. Mrs. Howse was a woman of fine character, a lifetime member of the Baptist church, and was highly esteemed in her community and elsewhere for her many virtues.

Mrs. Howse is survived by one daughter, Mrs. Rudolph Davis, of Paris; her mother, Mrs. E. V. Stanley, of Carrollton, Mo.; three sisters, Mrs. J. C. Shima, of Carrollton, Mo., Mrs. J. L. Minnis, of Long Beach, Calif., and Mrs. C. L. Rea, of Kansas City, Mo.; two brothers, Samuel and Robert Stanley, of Carrollton, Mo.

The funeral will be held at the family home in Carlisle at 2:30 o'clock to-morrow (Saturday) afternoon, with services conducted by Rev. Jos. Connell, pastor of the Carlisle Baptist church. The interment will follow on the family lot in the Carlisle Cemetery. The pall-bearers will be John Ross, Mr. V. Bostain, William Rankin, Mason Hamilton, Dr. Ed. A. Campbell, S. W. Willett, W. D. The greater part has been cut and housed, and having been planted early, is fully matured. Competent judges who have been over the county during the past few days state openly and without reservation that Bourbon county growers have most excellent crops of tobacco.

This is taken to mean the best thing in the world, "Join the Cooperative Association, and get the best prices for your tobacco."

When you see some men working you understand why they prefer to do it by the day.

**SUMMARY OF WEATHER AND CROP CONDITIONS**

High temperature during most of the week hastened the maturity of late tobacco and corn; but caused such rapid drying of the soil that there was little improvement in condition. Cutting of both crops proceeded rapidly. Most tobacco in the southern counties has been cut, but considerable burley is still in the field. The long period of dry, warm weather has caused the first cutting of tobacco to cure rapidly, with a good color, and without damage from sweating. Some of it is about ready to strip. Early corn in the shock is well dried out, and some is dry enough to crib. The week was too hot and dry for late potatoes, which range in condition from poor to fair in most localities. In most of the crop the plants are still green, but are small and are not doing well. Some of the earliest planting are being dug, with light yields. The weather was favorable for completing the harvest of cowpea and alfalfa hay, and for filling silos. The few scattered showers reached only a small area, and plowing is being seriously delayed by dry soil. What seeding has been done, mostly of cover crops, has been accomplished under unsatisfactory conditions as to drilling and germination. But little wheat has been sown. Pastures continue poor in most localities, having lost most that was gained from the last rains. Except plowing and seeding, which await rain, farm work is well advanced. Conditions were favorable for gathering and marketing fruit.

**CALIFORNIA HEN HAS EGG-LAYING RECORD**

The world's egg-laying record was broken, according to officials of the California farm federation, when Columbia Belle, a White Leghorn hen belonging to Alex Stewart, of Santa Cruz, California, laid her 324th egg on the last day of a contest that has been in progress for a year. The former record was 315 eggs in a year, made in 1921 by a pure White Leghorn from the Hollywood poultry farm of Hollywood, Washington.

**LONG-SOUGHT GRAVE FOUND ON BATTLEFIELD**

A search of many years was ended when Bishop Warren A. Chandler, of Atlanta, found the grave of Captain Jack C. Curtwright on the Perryville battle field, had the remains disinterred and shipped to Georgia for burial with military honors by surviving Confederates. Captain Curtwright was the father of the Methodist clergyman's wife. For sixty years the family had known only that his faithful negro servant had buried his body where he fell on a battlefield in Kentucky. Various cemeteries had been visited and success crowned the Bishop's visit to Perryville.
